

# Kasem word sheets — nouns

Batch 1 · twenty words · one word to a page · keep this page beside you while you write

## HOW TO FILL IN A SHEET

1. Read the English word at the top, then read the sentence under it. The sentence is there to show **which** meaning is being asked about — “water” the thing you drink, not “water” the garden.
2. Write the Kasem word on the first line, large.
3. For each form, **say the whole phrase out loud first**, then write down exactly what you said. Do not try to work it out as grammar.
4. Write **the whole phrase**, not only the part that changed. The word that goes with a noun changes to match it, and that is most of what these lines are for — writing only the noun throws it away.
5. Fill in Meaning 1. Use Meaning 2 only if the word really means a second, different thing.
6. Any line you are not sure about, **leave it empty**. An empty line is honest. A guess becomes a dictionary entry that teaches somebody the wrong thing.
7. Sign the bottom and write where you are from. If more than one person worked on a sheet, write both names.

## IF YOU RUN OUT OF ROOM

Write on the back of the sheet, and put the sheet code (N01, N02...) at the top of what you write there.

## WHEN THE BATCH IS DONE

Keep the sheets in order and send them back together. Do not throw away a sheet you could not answer — an unanswered word is something worth knowing too.

## THE KASEM LETTERS

Write these by hand exactly as they are printed. Using the nearest English letter instead files the word under a spelling that is a different word.

|                                                                                                  |                                                                                                    |                                                                                               |                                                                                                     |
|--------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------|
| <br>open e      | <br>open E      | <br>iota   | <br>capital iota |
| <br>eng         | <br>capital eng | <br>open o | <br>open O       |
| <br>v with hook | <br>capital v   | <br>schwa  | <br>gamma        |

## TONE MARKS

They sit on top of the letter before them. Only mark tone where it changes the word.

|                                                                                           |                                                                                            |                                                                                            |
